Re: Dominion – Possum Point Power Station VPDES Permit No. VA0002071
Permit Modification Request - Addendum

Dear Ms. Mackert:

Virginia Electric & Power Company d/b/a Dominion Virginia Power (Dominion) is submitting the enclosed addendum to our December 22, 2014 request to modify the subject permit. Our addendum includes an application Form 2F for coverage of one new industrial storm water outfall (S108) and modification of an existing industrial outfall (S107). We are requesting that permit condition I.A.12 be modified to recognize that industrially influenced storm water may be discharged through existing storm water outfall S107. Storm water runoff from industrial activities associated with ash handling activities located outside the ash ponds is represented by Outfalls S107 and S108. Outfall S107 collects storm water from the berm of Ash Pond D which discharges southeast of Pond D. Outfall S108 receives runoff from the area south of Pond E and near the construction entrance. In addition, we are providing information to supplement Attachment A of the Form 2F that was submitted with our earlier application, and we are also including proposed changes to a number of permit conditions for clarification.

Should you require additional information, please contact Ian Whitlock at (804) 273-2991 and/or Jeff Marcell at (703) 609-3813.

Sincerely,

Cathy C. Taylor
Director, Electric Environmental Services
